Mindsphere, one of today's big maestros of melodic old school influenced goa-trance. Mindsphere needs no special introductions, many people are aware that it's one of the leading Goa trance projects and for sure one of the biggest psychedelic trance live acts coming from Turkey.

Behind Mindsphere is Ali Akgün, passionate musician and artist, born in Istanbul. In the year 99, he started producing electronic music. After his first performance for the first time in 2002, he kept playing in many goa psy events. In 2005, he found Turkey's first Goa Psy trance forum portal Psyturk.com. Psyturk took an important role in the development of Psychedelic Trance in Turkey. The first Mindsphere album was released in 2007. He is also running a Space Ambient Project and Downtempo Project. He has taken part in events and festivals around the world.
